

Roland Moser

Roland Moser is a professional photographer based in Solothurn, Switzerland. He says about his art : „Photography to me is far more than only taking pictures of beautiful places and epic light. It’s not about taking picture of landscapes that sells over a stock agency or what so ever. Photography is a passion, it’s a way of life that enables me to express my thoughts and feelings. I’m not a person for “big words”, I’d rather let my pictures do the talking..“
